## SpotCam HD Best Cloud Based WiFi Monitoring Camera

SpotCam HD is a true cloud based, HD resolution WiFi monitoring camera made in Taiwan, designed for home, small office, and small business.

## **W**atch All You Want

**Stay Connected with  
What You Care on the Go**

SpotCam HD is a cloud based WiFi video monitoring camera that allows you to view live video or review footage not only on your mobile devices but also PC or laptop.

## **No More Server in the House**

**1-Day Secured Cloud Recording FREE FOREVER**

Why put a bulky server in the house when you can have cloud recording for free?

When you buy your SpotCam, you are instantly eligible for free 24-hours  
auto-recycling cloud recording.

## Unbelievable Easy Playback and Sharing

When other people suffers from all kind of predicament of SD card recording (such as remove SD card from the camera, install dedicated software for SD card video playback, or can only playback SD card video when they are home), you are just one click away from playing your recorded footage with mobile/tablet/laptop/PC.

## Dual Protection for Your Private Video

Your private video is perfectly securely by two security measures, bank level SSL security for video transmission and video encryption on the cloud server. Nobody can access your video without your permission.

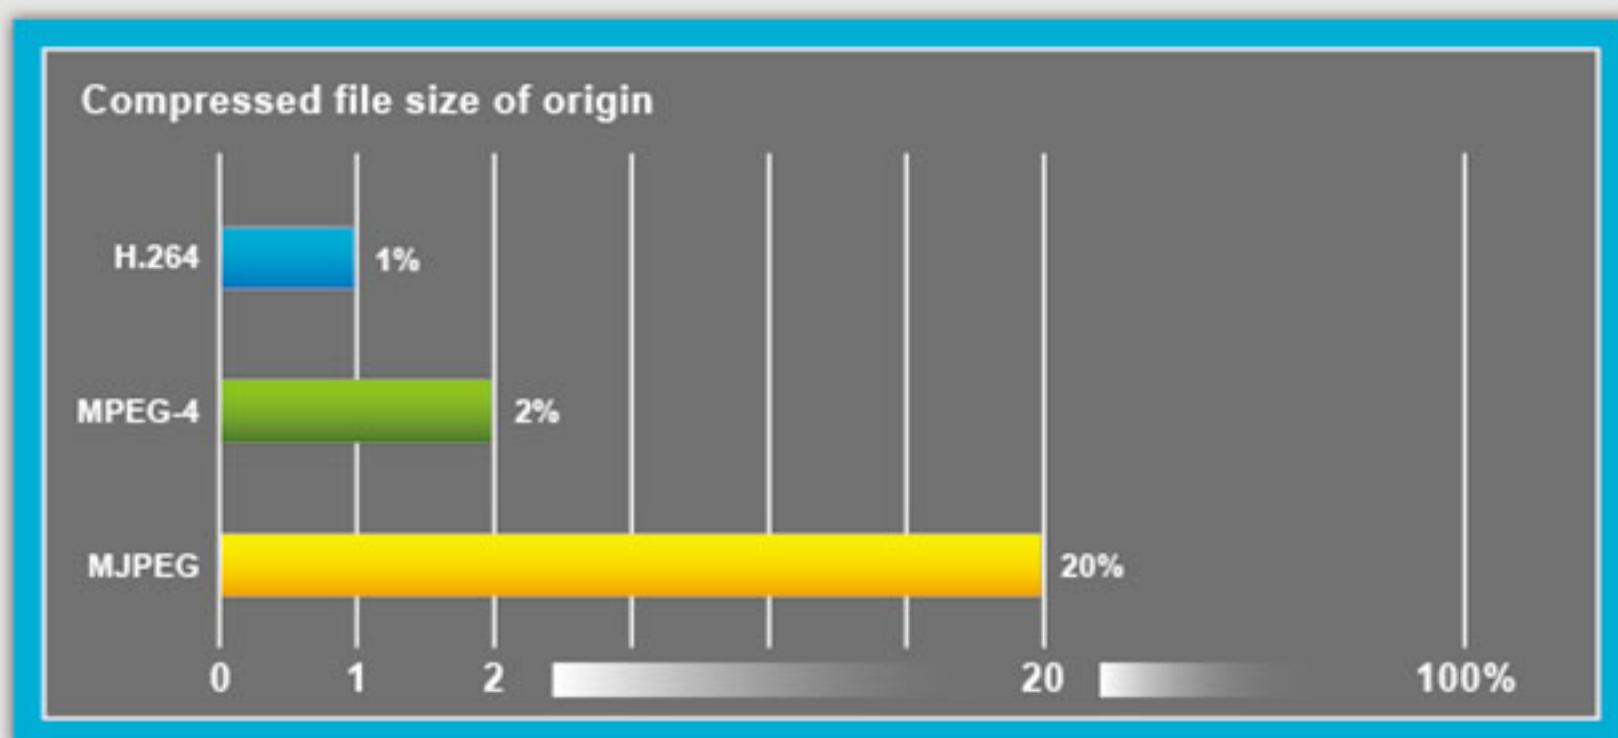

## See Finest Detail with HD 720P High Resolution Video

**Never Miss Any Detail of Important Moment**

You may not be aware that most home monitoring camera provide you with low resolution video such as VGA (640x480) or even CIF (352x240). You just can't see any detail with this kind of low resolution video.

## Most Advanced H.264 Compression Technology

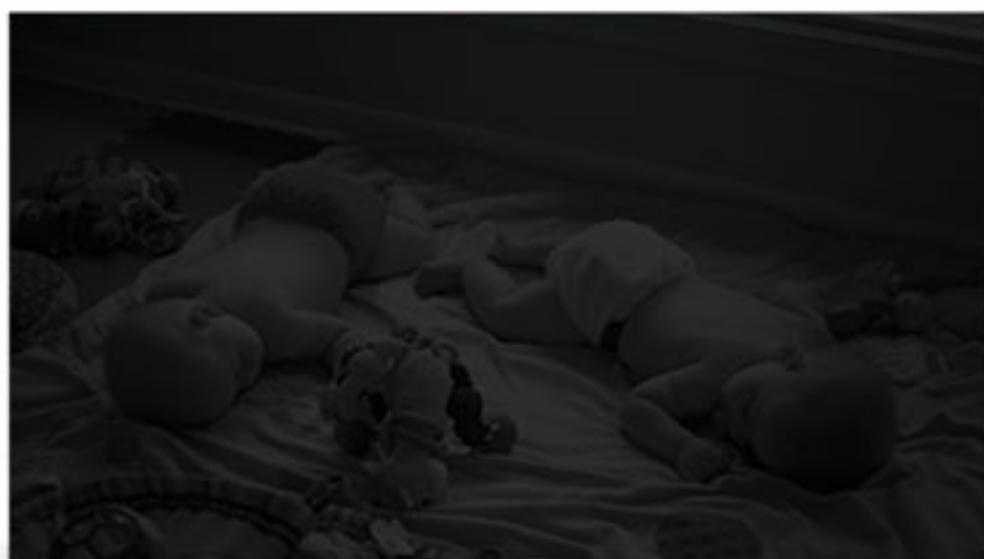

### Only Minimum Bandwidth Required for SpotCam Video Transmission

It is always a headache to streaming high resolution with limited bandwidth, especially for WiFi connection. This is why we insist to go with H.264 compression while many cheap home camera still adopt MJPEG.

## See Clearly in the Dark Like a Pro

Most people don't know that to see clearly in the night is just as important as in the day since most events happen when it gets dark. To make sure you can see whatever is happening even in pitch dark, SpotCam HD is equipped with 12x IR LED to make sure you can see professional level night vision video.

## 110° Super Wide Angle View

Cover Every Corner in Your House

Normal home monitoring cameras come with 50°-70° view angle only that can't even capture your whole living room into the scene. Make sure all the scene is covered is far more important than the ability to do pan/tilt for an indoor monitoring camera.

## 24/7 Active Alert Notification to Your Mail and Mobile APP

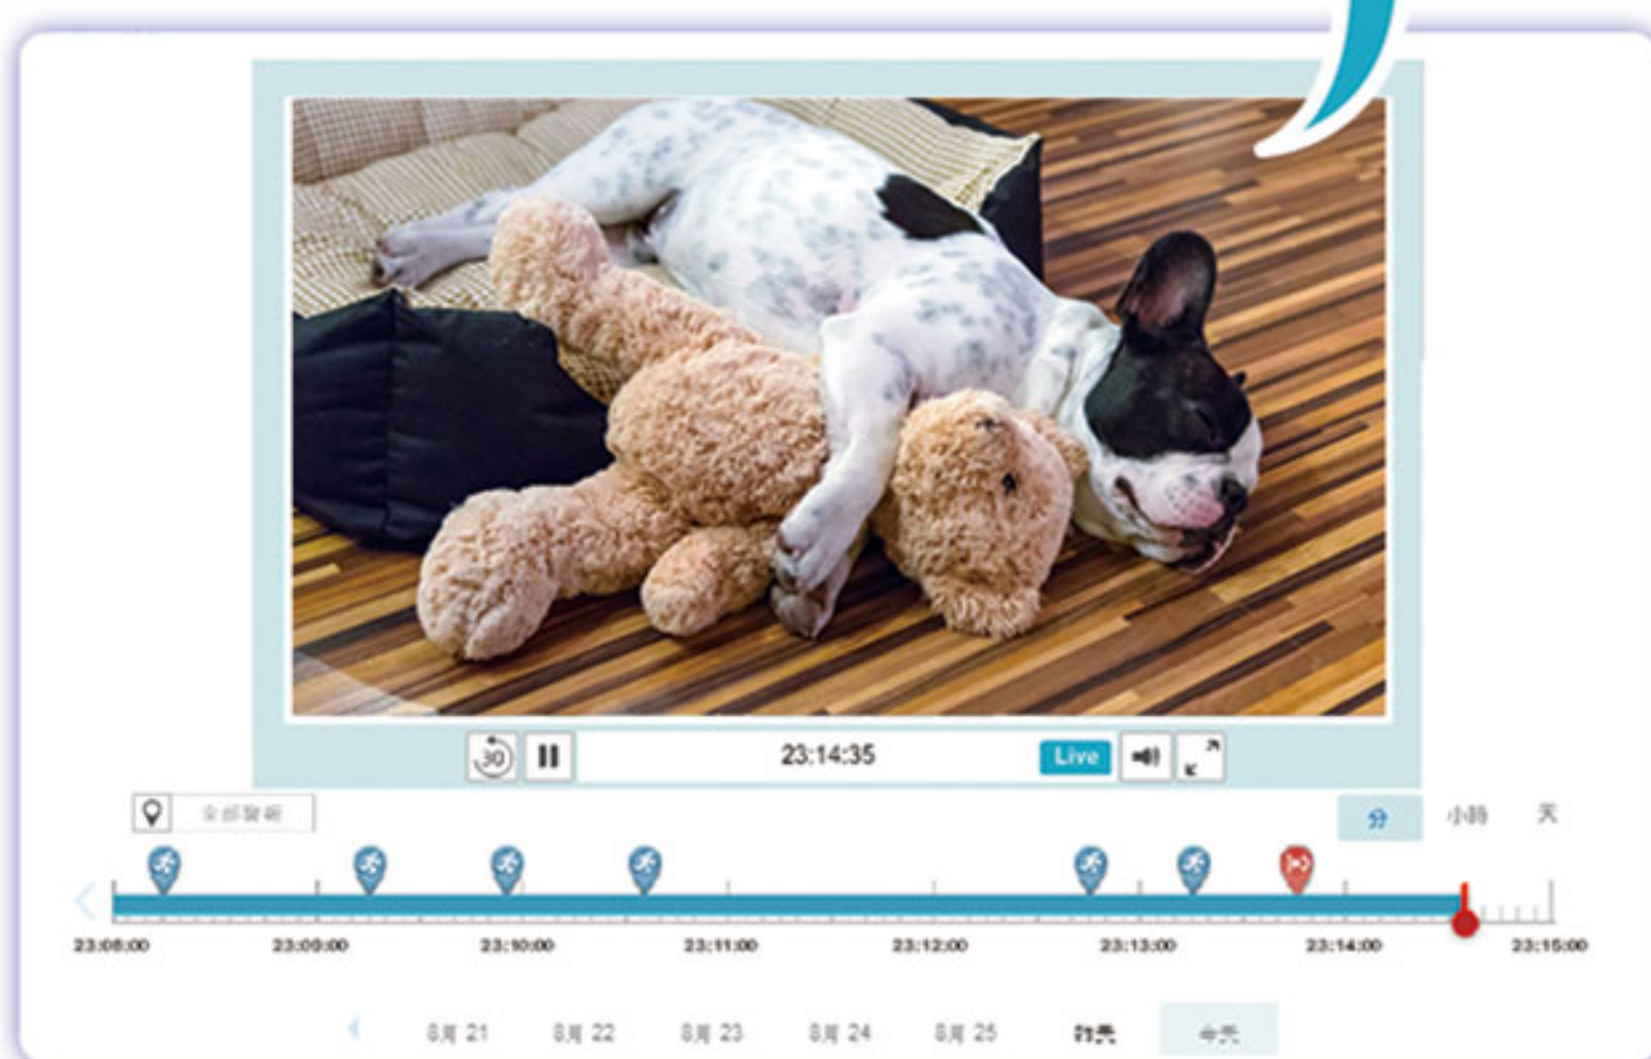

SpotCam HD not only detect motion, it also detect sound events in the environment and disconnection between SpotCam and cloud server. You can always stay informed by our active E-mail or/and APP alert notification.

## Make Film Footage and Share to Facebook/YouTube

Imagine how much fun you will miss if you can only see live video without playing back footage and make film by yourself. SpotCam free cloud service include film making functions and one click share to Facebook/YouTube, make everything absolutely easy.

## Easy Setup in an Instant with PC/Mobile/Tablet

**You Can Make It As Long As You Can Set WiFi**

All you need is WiFi in the place and a sign up an account on MySpotCam.com, no networking or technical skills required to finish the setup.

## Made to Be Simple

**Flexible Free Standing or  
Wall Mounting Bracket**

SpotCam can stand firmly on the table or shelf with carefully calibrated free-standing without falling. A separate wall mounting plate is also included in the package for you to fix the camera onto a wall with, what so nice is that you can take the camera off the plate easily without unscrewing anything.

## 2-Way Audio for Much More Fun

Listen to what is happening from the camera is good, speaking back is even better! SpotCam HD equipped with built-in MIC and speaker, not only capture the sound from the site but also allow you talk back. Image how much fun you can get when you speak to your puppy or kitty when you are away!

**Try it!**

## SpotCam HD Looks Just Right in Your Place

Born to be used in the house and small office, SpotCam HD is designed with elegant looking and blend perfectly into the decoration of your place. Since you will see it every day, why not pick one that looks better?

## Not Sure What You Are Buying? Feel it Now!

Many SpotCam users choose to share their video with the world, so you can watch how other people using their camera and experience easy to use SpotCam interface immediately.
